EU (Withdrawal Agreement) Bill

PHOTO REDACTED DUE TO THIRD PARTY RIGHTS OR OTHER LEGAL ISSUES

OVERVIEW

The EU (Withdrawal Agreement) Bill will implement in domestic law the **Withdrawal Agreement** agreed between the UK and the EU, enabling the UK to meet our international commitments. The **Bill** will also legislate for the **EEA EFTA Separation Agreement** and the **Swiss Citizens' Rights Agreement** which, alongside the **Withdrawal Agreement**, are collectively known as the '**Agreements**'. The Bill also sets out Parliament's role in delivering the UK's future relationship with the EU.

The purpose of the **Bill** is to implement the **Agreements** and therefore to:

- Protect the rights of EU citizens and **EEA EFTA** and Swiss nationals, living and working in the UK
- Create a time-limited **implementation period** which gives businesses and people time to plan for one set of changes
- Provide continuity and certainty at the end of the **implementation period** by setting out what will happen to ongoing EU law processes at the end of this period
- Provide for the **Protocol on Ireland/Northern Ireland** in domestic legislation
- Create a means for paying the financial settlement agreed with the EU in the **Withdrawal Agreement**. Parliament will have proper scrutiny of all payments made by the Government

The **Bill** also contains additional measures that are not directly related to the implementation of the **Withdrawal Agreement**, but which are nevertheless a core part of the Government's vision for Brexit. These include:

- Providing Parliament with oversight over the future relationship negotiations, in which the UK will deliver the ambitious FTA which the EU has agreed to negotiate
- Facilitating the access of Northern Ireland goods to the market within Great Britain
- Above all, recognising the sovereignty of Parliament

The **Withdrawal Agreement** will affect the whole of the UK. The **Devolved administrations** will be able to make **secondary legislation**, where appropriate, using powers given to them by the **Bill** within areas of **devolved competence**.

In implementing the **Withdrawal Agreement**, there are three key documents which, despite having very similar names, have distinct purposes:

EU (Withdrawal) Act 2018

Prepares the **statute book** for when EU law ceases to apply in the UK (so that UK laws can function) without prejudice to negotiations

Withdrawal Agreement

International agreement between the EU and the UK, making the arrangements for leaving the EU and the immediate period after - citizens rights, **implementation period**, etc

EU (Withdrawal Agreement) Bill

The focus of these factsheets, the **Bill** recently introduced to Parliament. Its purpose is to implement the **Withdrawal Agreement** into domestic law

STATUS OF WITHDRAWAL AGREEMENT

The **Bill** will enable the UK to ratify the **Withdrawal Agreement**. The **Withdrawal Agreement** must be ratified in order to leave the EU with a deal.

The **Bill** will allow the **Agreements** to apply directly in UK law. This means that individuals and businesses should have confidence that they can rely on the terms of those **Agreements** as a matter of domestic law.

The Bill will also recognise the sovereignty of the UK Parliament, notwithstanding the application of the Withdrawal Agreement in UK law.

TIMING

The **Bill** must receive **Royal Assent** before the UK leaves the EU on exit day in order for the UK to ratify the **Withdrawal Agreement**.

As explained in the *implementation period factsheet*, during this time businesses and individuals will benefit from the certainty of the continued application of EU law while we conclude the terms of the future relationship.
